

TUESDAY, JULY 12, 1887.

LOCAL NEWS.

A book-keeper is wanted.
Geo. W. DeLong Post, G. A. R., meets to-night.
A series of official appointments are gazetted elsewhere.
The mail by the J. D. Spreckels will close at 9:30 this morning.
The Y. M. C. A. book-keeping class is off for two weeks, owing to Mr. P. C. Jones taking a trip to Hawaii.

A crew of the Honolulu Boat Club were out practising last evening. Their time around the Spar buoy was 22:10.
Capt. Harry Swinton, of the Canute, delivered a rattling reform address to the natives at Koloa on his last trip there.
The concert at Emma Square last night deserves praise for the way in which the boys responded to the baton of Prof. Berger.

Seek health and vigor by a plunge in the briny surf at the Waikiki baths, where every convenience and attention is furnished by Mr. and Mrs. Crooks.
The native population turned out in large force last evening, and soon lined the water front, in quest of the prophesying Alalaua, and remained there up to a late hour.

One of the symptoms of a mass meeting early last night was the appearance of a swashbuckler on the street, carrying a pistol big enough to be the nephew of a gatling gun, and girt about with a full cartridge belt.
The artesian well in the Palace yard when sunk, about four years ago, had 42 feet 9 inches of water above the sea level. Since the boring it has varied 2 feet 4 inches only, and this morning it registered 42 feet 4 inches of water.

A party composed of three young ladies on horseback met with a mishap by one of them being thrown from her horse. The young lady showed considerable grit by the way she remounted and rode off as if nothing unusual had happened.

A small fish, resembling the common gold fish, called by the natives "Alalaua," was caught by some fisherman and exhibited at the Fish Market. To natives the presence of this certain kind of fish, which is very seldom seen, portends the death of one of the royal family.

In boating circles there is some talk of a boat race between a crew from the U. S. S. Adams and the shore boys to take place shortly. If the reported men-of-war arrive soon, it is hoped that several more races will be arranged. Now boys, show the tars what Honolulu muscle is worth!

At about half-past nine last evening a black horse attached to a brake came tearing along King street from the direction of Palama. It continued its course along King, rousing the fatigued express drivers, and probably a policeman, almost colliding with several hacks and then disappeared after passing the Palace. It could not be ascertained to whom the brake belonged.

Col. M. Thompson is still heaping the Herald board with Eastern news. By the way, the colonel hears by last mail that his son, Lieut. Percy W. Thompson, while the revenue cutter Dallas underwent repairs, was staying with his wife and mother at the Hotel Fitch, Portland, Me. Mrs. Col. Thompson's protracted stay in the States is for the purpose of looking after her interest in the French spoliation claims, before the Court of Claims.

Ironworkers' Rifle Association.
At a meeting of employees of the Honolulu Iron Works yesterday, a Rifle Association was organized in connection with the establishment. The following named officers were elected: President, John Gillilan; Vice-President, James Lyett; Secretary, Mr. Roseman; Treasurer, Thos. Smith. Twenty-five members were enrolled, and it is proposed to have three teams. Another meeting of the Association will probably be held this evening.

To Do the Volcano.
Mr. Vivian, correspondent of the New York Herald, left for the Volcano by the Kinaiu last evening in company with Mr. Jules Tavernier, the artist. The journalist will write an account of the wonderful object for one of the leading American magazines, to be illustrated with sketches from the talented hand of the artist. Their joint production will be eagerly awaited, as a description of Hawaii's most noted attraction worthy of preservation. Either Harper's, the Century, or Scribner's—probably the one that will value it most—will contain the article. Look out for it.

SUPREME COURT.

July Term—Before Judge Preston.

The Court opened yesterday at 10 a. m., foreign jurors in attendance. At 2:10 p. m. the Court adjourned for the day.

Police Court.

Monday's drunk list comprised H. Christian, Kamakaohei, Pani, F. W. Farm, Frank Anderson, Samuel, and Pa.

Francis Dorcas pleaded guilty to assault and battery on Ah Sam last Sunday, and was fined \$21.

Christian Freist was charged with assault and battery with a gun on Pablo Shinenen in Honolulu on Saturday night last, and was remanded till the case is moved on.

John Gomez was convicted of reckless driving and fined \$8.30.

Alex. Alters and Henry Ciras, remanded from the 6th inst. for smuggling liquors, were further remanded till Tuesday.

A Chinaman charged with assault and battery on a native woman was remanded.

A Nuisance.

One of the still vacant lots of the burnt district is at the corner of Maunakea and Hotel streets. This area contains a well, that has been made the receptacle of all sorts of refuse. An abominable stench is emitted from the putrefying contents, to the undoubted danger of the public health. There is another well, containing filth, about fifty feet deep, further up Maunakea street toward Beretania street. It is not covered or guarded, hence involves great danger of accident, especially at night. These sources of danger are mentioned for the benefit of the proper authorities.

Fishing for a Meeting and a Meeting For a Fishing.

Rumors were rife during yesterday stating that a mass meeting was to be held by the natives last evening. Reports of that nature were so general that a Herald representative thought it best to enquire into the truth of them. After performing a tour from Palama to Punchbowl, in fact a general round of Honolulu, making strict inquiries of the few natives met, nothing could be learned, other than that a meeting was to be held at the Kaumakapili Church. The Marshal himself was discovered on the same errand. Hardly a native was to be found on the streets or at any of their favorite resorts, a fact that seemed to confirm the general belief. After several hours of futile search it was learned that the native population had turned out en masse—not to a heated political meeting—but to fish for "Alalaua." It is understood, however, that there will be a meeting to fish for men this evening.

Result of Rash Driving.

Last Sunday, about three o'clock in the afternoon, what might have proved a serious accident, happened on the corner of Fort and Hotel streets. A man was driving along Fort street very rapidly, and all was serene until the driver attempted to get on Hotel street without turning the corner. Science, however, went back on him, and the representative of ambitious humanity involuntarily dismounted from the brake and collided with mother earth or a curb stone. The most interested party held on to one rein, however, causing the horse to move gracefully forward and backward three or four times, the wheels of the brake passing over his prostrate form each time. Some bystanders rescued the imperilled individual. After getting up and shaking himself and telling some too curious spectators to go to mysterious regions, he climbed into his brake and drove away none the worse for the mishap.

Electric Illumination.

The electric light strung over the junction of King and Richards street is only temporary. Yesterday a tall pole was erected at the foot of Palace Square, on which the lamp for that quarter will be fixed. A pole 75 feet high, to carry two lamps, has been erected in the center of Thomas Square, and the poles in that section of the city are all up. Without speaking by authority in reply to a query in our evening contemporary, it is suggested that the reason the gasoline lamps are still lighted, near electric lamps, is that the latter are ordinarily put out at a comparatively early hour. There are to be twelve lamps on Nuuanu street, between the Fish Market and Judd street. Fort street will have a lamp at each corner.

The Embezzlement Cases.

Half-past one yesterday afternoon was set for the hearing of the charges of embezzlement of public funds against Walter Murray Gibson and Fred. H. Hayselden, in the Police Court. At that hour the spectators' benches were filled, and as many more people were gathered on the sidewalk below. Mr. Wond, Clerk of the Court, was at his desk, industriously making out records and mittinuses. He said the Court was open, but did not know where the justice was. Information gained on the street was that the Bench had gone to look for the Bar, allegorically speaking; but before it returned the head of the Bar in the person of Attorney-General Ashford appeared and interned the Clerk that the case was postponed.

I. O. O. F.

Last evening the officers of Harmony Lodge, No. 3, I. O. O. F., were installed by D. D. G. S. W. E. Foster, assisted by P. G. S. R. H. Graham, L. C. Ables and L. L. Lapierre. Following is the list: C. J. McCarthy, N. G.; H. H. Williams, V. G.; W. C. King, Secretary; C. J. Fisher, Treasurer; F. Wilhelm, W.; M. D. Monarrat, R. S. N. G.; G. M. Raupp, L. S. N. G.; R. H. Graham, R. S. V. G.; J. C. Gall, L. S. V. G.; Wm. Larsen, R. S. S. After the meeting the Lodge adjourned to the Elite ice cream parlors for refreshments.

Fire at Ewa.

The house of Mr. Wm. Mutch, foreman carpenter for Mr. H. F. Bertemann, at Ewa was destroyed by fire on Sunday last, while the family were out fishing. They returned, on hearing their dwelling was in flames, too late to save any of the contents. It was a new building, erected only about seven months ago. The house cost about \$2,500, and was partially insured. It caught fire about three o'clock in the afternoon, it is supposed from the match of an incendiary.

A full line of the materials for the making of those beautiful paper flowers at present all the rage on the Coast, can be had at King Bros' Art Store, Hotel street.

ST. CLAIR—GIBSON.

The Breach of Promise Case Postponed Till October.

As will be seen in our Supreme Court record, the famous breach of promise case—Mrs. St. Clair vs. Gibson, the ex-Premier—has gone over till the October Term. Hon. Paul Neumann, of counsel for the defendant, yesterday filed in Court an affidavit made by his client under that date, setting forth reasons why the trial should be so deferred. Mr. Kinney, of counsel for plaintiff, apparently saw the force of the plea submitted, from defendant's standpoint, as he abstained from obstructing the motion for continuance. The defendant's affidavit cited particulars of the recent political excitement pertaining to himself, claiming that from the agitation that focused largely against his administration he could not expect an unprejudiced trial at the present term. Therefore, Cupid's affair must await the adjustment of the weighty concerns of Caesar.

A Dreadful Crime.

A native named Levi Kaawa was arrested last night for a criminal assault upon the person of a quarter white girl of the tender age of three years. The child was found in a very critical state and given into the medical care of Dr. Miner. Kaawa on being taken to the Station denied the commission of the heinous crime. He is considered by many to be of unsound mind. The warrant was sworn to by the child's mother, Nawelu.

The Equitable Column.

THE EQUITABLE Life Assurance Society

OF THE UNITED STATES.

Total Assets, Dec. 31, '86, \$75,510,472.76.

Total Liabilities, including legal Reserve on all existing policies (4 per cent Standard) \$59,154,597.000

Total Undivided Surplus over Four per cent Reserve, \$16,355,875.76

Of which the proportion contributed (as computed) by Policies in general class, is \$5,728,261.76

Of which the proportion contributed (as computed) by Policies in Tontine class, is 10,627,114.00

Upon the New York State Standard of 4 1/2 per cent interest, the Surplus is as computed, \$20,495,175.76.

New Assurance written in 1886, \$111,540,203

Total Outstanding Assurance, \$411,779,098

Increase of Premium Income, \$2,810,475.40

Increase of Surplus (Four per cent basis), \$2,409,636.63

Increase of Assets, \$8,957,085.26

In actual Surplus (namely the excess of accumulated funds over liabilities) in Premium Income; in the amount of Assurance in force on its books, the Equitable Life Assurance Society of the United States exceeds every other life assurance company, and may be justly regarded as the largest and strongest life assurance organization in the World.

EXAMPLE

Of Policy No. 67,389. Life. Issued Jan. 22, 1872, on the life of W. H. C. Date of expiration Jan. 22, 1887.

Amount of Policy, \$10,000. Tontine Period, 15 years. Age 53. Annual Premium, \$543.10.

Total premiums paid in 15 years, \$8,146.50

1. CASH VALUE, Consisting of Reserve, \$3,856.30 and Surplus, 4,199.80 \$9,056.10

2. PAID-UP VALUE, \$13,050.00

If the policy-holder select this settlement, as the paid-up value is larger than the original amount of assurance, a satisfactory certificate of good health must be furnished, or the excess must be drawn on a cash basis.

3. CASH SURPLUS, \$5,199.80

Under this settlement, the policy holder withdraws the surplus in cash, and retains the original policy, continuing the payment of premiums, less annual dividends.

Three other options are available under the Policy.

The policies with 10-year Tontine periods do not show results as satisfactory as those above given. Policies with 20-year periods, on the other hand, will show much larger results than those with 15-year periods; but for purposes of illustration the 15-year policies—those of the intermediate period—are given as fair illustrations.

The longer period of accumulation which the 20-year policies enjoy renders them the most desirable for those who, seeking absolute protection at the lowest "Life" rate, desire also the largest returns in case they live.

Hence the Best Free Tontine "Ordinary Life" Policy is One with a

TWENTY-YEARTONTINE PERIOD

The Free Tontine Policy of the Equitable Life Assurance Society is unrestricted after one year, incontestable after two years, and is then PAYABLE in the event of death, immediately upon the receipt of satisfactory proofs of death.

It guarantees a full share of the surplus earned, and being issued by a Society holding a

Larger Surplus than any other Assurance Company,

May be expected to show larger profits than the policies of any other company.

In addition to the advantages above cited, the Equitable now guarantees a full return of all premiums paid as well as the face of the Policy in case of death during the Tontine period.
